*What you missed at our last meeting
and what's coming up!*

From our meeting on February 22nd, 2018

Deane Motis introduced our speaker, Jacques White, Executive Director of Long Live the Kings.

He has enjoyed fishing and clamming for many years, studied Oceanography in college, and spent time working at Hatch and Kirk in Ballard.

The rivers, estuaries, and marine environments need to be kept healthy for the salmon. Salmon have decreased in number and in size due to warming and pollutants of the environment. Orcas are endangered because they are starving since salmon is a great part of their food source. The vision of Long Live the Kings is to have strong, flourishing salmon runs. They are learning, planning, and acting on behalf of the salmon by improving salmon and steelhead recovery strategies, implementing Salish Sea marine survival solutions, modifying infrastructure to benefit local ecosystems and people, and building constituencies for salmon and steelhead. There are 78 partners who are giving to help this project because "When salmon thrive, we thrive!" To learn more to www.LLTK.org

Minutes were approved. (Minutes submitted by Debbi Larson of Skagit Bank)

Committee Reports
